

What to expect during Your Akashic Records Reading with Miracle and how best to prepare for it.

In essence, all that's asked of you is that you show up with your intention for the experience, and be open to whatever magic awaits. For more details, read on...

Introduction & Overview:

Hi! My name is Miracle Laurie and I'm so glad you're here! Below is some information outlining what you need to know to see if a Reading is right for you. I describe what the "Akasha" is, what the Reading might feel like for you, what questions are best to ask, and what kinds of things we can explore together. I enjoy working with celebrities, soul-led entrepreneurs, and anyone who's ready and willing to become their most authentic selves. Onward! - Miracle xoxo

What Is The Akasha?

The "Akasha" is basically the all of the all. It's Divine Consciousness and Universal Intelligence. It's the space where all of Source exists, and the place from which it sends its radiant light to us. It's how we access your angels, ancestors, loved ones, past lives, teachers, spirit guides and the Universal Healing Love Energy that is always available and flowing to you. It is where we remember that we are all One.

What Are The Akashic Records?

Your "Akashic Records" - basically reveal your specific soul's journey - past, present and future possibilities. (We say, "future possibilities" because *nothing is set in stone, of course*). So we create a sacred, intentional container to "open your records" and access whatever energy, healing, guidance, clarity or support it is you might need in that moment.

Our Readings are consent-based, and held respectfully in the container of our set time together. And though you can ask about other people, places, pets, things or circumstances - all of it will be as it relates to you (*vs. us opening the records of those beings or objects, since again - it's consent based*).

What Kind of Questions Should I Ask?

Whether you're looking for some Spiritual Strategy for your Business, want to do some deep Healing Work, or are just showing up to get some General Divine Guidance on a myriad of topics, we've found that this is the best way to start the conversation.

The most effective and efficient questions to bring to a reading are more of the, "how, why, what" variety vs. "yes/no and when" for the reasons I've stated above. But literally everything is on the table! Whatever you wanna talk about, connect to, explore, ask about or heal - is fair game and I love exploring ALL of it with you!

And you can trust that whatever information you get in your reading, you are ready to receive it. Everything that comes through me to you, is in service of your highest self and your highest good, and meeting you exactly where you are in that moment.

What Is Miracle's Job As The Reader?

Once you ask a question, I just deliver the answer as I see it, hear it or feel it. It is not my job to edit or interpret the information, so even if it doesn't make sense to me, it'll probably make sense to you. But of course you can always ask for clarification. This is *your* reading and we will make sure it flows in whatever way serves you best.

What Does A Reading Feel Like?

I think you'll find that the whole experience is quite relaxed, fun and conversational. Many people think Spiritual Experiences like these need to be heavy, serious, sad or intense... and though they can have moments of that (*if that's what's need in the moment*) - I can say with 100% certainty, that my clients and I have also burst out laughing in every single reading I've ever done! Our Spirit Squads are actually quite funny, and the whole session is held in Divine Light - so it's essentially just a really beautiful, loving and clarifying experience.
